

OASIS Surgeon's Choice Card and **Surgeon's Choice Cannula Card** are alternative solutions to standard surgical preference cards. They provide the doctor's preferred surgical disposable instruments; such as any combination of up to eight OASIS cannulas, needles, and cystotomes (CNC), and up to two safety blades in an organized and compact delivery method.

The Surgeon's Choice Cannula Card* holds up to six CNC.

Both Choice Cards are packaged in a single peel pouch to reduce repetitive motion.

Surgical teams are able to reduce preparation time before surgery, reduce waste, and support a continuous flow from surgery to surgery.

Surgeon's Choice Card

For your...

- *Surgical Team - one peel pack reduces repetitive motion and prep time pulling disposable instruments*
- *Surgery Center - supports efficiency with a continuous surgical flow in the O.R.*
- *Surgeons - their preferred disposable instruments custom organized and on-hand*

Surgeon's Choice Cannula Card

The Surgeon's Choice Cannula Card* holds up to six cannulas, needles, and cystotomes.

Nourishing and sustaining the eye-care community—for the long term.
